Bull Breeding Soundness

Third Edition

June 2013

Albert D. Barth, DVM, MVet Sc
Diplomate of the American College of Theriogenologists
Professor of Large Animal Clinical Sciences
Western College of Veterinary Medicine
University of Saskatchewan
Saskatoon, Saskatchewan, Canada

Published by the Western Canadian Association of Bovine Practitioners

Preface 1
Introduction 2

I. THE BREEDING SOUNDNESS EVALUATION FORM 4

II. SERVICE CAPACITY 9
1. Introduction 9
2. Methods of testing service capacity 10
3. Breeding crates 12

III. PHYSICAL SOUNDNESS 14
1. General health 14
2. Body condition 14
3. Eye problems 15
4. Foot and leg problems 16
5. Examination of the scrotum and its contents 18
a) Restraint
b) Scrotal shape and scrotal abnormalities
c) Scrotal frostbite
d) Palpation of the scrotum and its contents
6. Scrotal circumference (SC) 23
a) The relationship of SC to fertility
b) Effects of nutrition
c) Effect of breed
d) Technique of SC measurement
e) Sources of error in SC measurements
7. Transrectal internal examination 29
8. Examination of the penis and prepuce 31

IV. SEMEN COLLECTION 34
1. Semen collection by electroejaculation 34
a) Equipment
b) Restraint
c) Stimulation technique
2. Factors affecting semen collection 36
a) Electroejaculation technique
b) Effectiveness of electroejaculation equipment
c) Individual bull response to stimuli
d) Disturbances of testicular or epididymal function

3. Collection by transrectal massage 37
4. Collection by artificial vagina 37
5. Collection with an internal artificial vagina 37
6. Collection by vaginal aspiration 38

V. EVALUATION OF SEMEN QUALITY 40
1. Microscopy 40
a) Kinds of light microscopes
b) Alignment and care of microscopes
2. Semen density and volume 41
3. Sperm viability 41
a) Gross motility
b) Individual motility, dilution methods
c) Vital staining
4. Sperm morphology 43
a) Preparation of semen smears
b) Preserving semen samples
c) Artifacts, contaminants and debris in semen smears
d) Differential counting and recording of sperm abnormalities
e) Classification of sperm abnormalities
f) Tolerance levels for sperm abnormalities
g) Classification of breeding soundness
h) Decision deferred bulls

VI. SPERM STRUCTURE 50
Types of sperm abnormalities

VII. PHOTOGRAPHIC CATALOG OF SPERM ABNORMALITIES 53

VIII. SPERM ABNORMALITIES: A REVIEW 70
1. Pyriform heads and tapered head 70
2. Microcephalic and macrocephalic sperm 71
3. Nuclear vacuolation 72
4. Abnormal DNA condensation 75
5. Detached head 76
6. The Decapitated sperm defect 77
7. Rolled Head-Nuclear Crest-Giant Head Syndrome (RCGH) 77
8. Sperm accumulation 77
9. Azoospermia/Oligospermia 78
10. Knobbed acrosomes 79
11. Distal midpiece reflex (DMR) 81
12. Segmental aplasia and midpiece fracture 83

13. Abaxial and Accessory tails 84
14. Dag defect 84
15. Tail stump defect 85
16. Corkscrew defect 85
17. Pseudodroplet defect 86
18. Coiled principal piece 86
19. Short tail defect 87
20. Proximal cytoplasmic droplets 87
21. Distal cytoplasmic droplet 88
22. Sperm agglutination and antisperm antibodies 89

IX. DEVELOPMENT OF SPERM ABNORMALITIES 97
1. Normal spermatogenesis 97
2. Abnormal spermatogenesis 98
3. Classification of sperm abnormalities 104
4. Interpretation of sperm morphology counts 105

X. PUBERTAL DEVELOPMENT 108
1. Developmental changes in the testes 108
2. Relationships of age and puberty 108
3. Effect of nutrition on sexual development 109
a) Effect of postweaning nutrition
b) Effect of calfhood nutrition
c) Effect of breed on onset of puberty
d) Effect of season on onset of puberty
e) Relationship of SC and puberty
f) Selection of bulls at weaning
g) Selection of bulls at one year of age

XI. CONGENTIAL ABNORMALITIES OF THE GENITAL TRACT 119
1. Congenital conditions of the Testes and Scrotum 119
a) Testicular Hyperplasia
b) Testicular Hypoplasia
c) Klinefelter's Syndrome
d) Effect of a female co-twin on bull fertility
e) Cryptorchidism
f) Scrotal or Inguinal Hernia
g) Ectopia Testis
h) Short scrotum, Caudal frenulum of the scrotum, Rotated scrotum
i) Vascular Malformation of the spermatic cord

2. Congenital conditions of the efferent ductules, epididymis and accessory glands..... 122
a) Bind-ending efferent ductules
b) Epididymal aplasia
c) Cystic appendix epididymis
d) Hypoplasia and aplasia of the vesicular glands
e) Prostatic and bulbourethral gland cysts
3. Congenital conditions of the penis and prepuce 125
a) Deviations of the penis
b) Congenitally short penis
c) Persistent frenulum
d) Hypospadia
e) Eversion of the prepuce

XII. ACQUIRED ABNORMALITIES OF THE GENITAL TRACT 132
1. Testicular degeneration 132
2. Testis fibrosis 133
3. Orchitis 135
4. Testicular neoplasia 136
5. Scrotal hydrocele and hemocele 136
6. Penile hematomas 136
7. Preputial injuries 138
a) Fresh lacerations
b) Laceration with prolapse
c) Laceration with phimosis
d) Laceration with paraphimosis
e) Circumferential lacerations
f) Laceration with phimosis and abscessation
g) Laceration with ventral abdominal cellulitis
8. Penile papillomas 144
9. Inflammatory conditions of the accessory sex glands 146
a) Vesicular adenitis
b) Epididymitis
10. Hemospermia 148

XIII. MANAGEMENT OF BEEF BULLS 152
1. Rearing bulls for fertility 152
2. Use of yearling bulls 153
3. Management of 2-year-old and older bulls 154
4. Effect of bull to female ratio on fertility in pasture breeding 156

5. Effect of service capacity on fertility 158
6. Effects of social dominance order on fertility 158
7. Postpartum exposure of cows to bulls to shorten postpartum anestrus 160

Acknowledgments

The author is greatly indebted to the following reviewers for the time and effort to ensure that this manual correctly reflects the scientific literature and the views of veterinarians across Canada.

Dr. Bronwyn Crane	Department of Health Management, Atlantic Veterinary College Charlottetown, Prince Edward Island
Dr. Craig Dorin	Veterinary Agri-Health Services Ltd. Airdrie, Alberta
Dr. Walter Johnson	Department of Population Medicine, Ontario Veterinary College Guelph, Ontario
Dr. John Kastelic	Department of Production Animal Health, University of Calgary Faculty of Veterinary Medicine, Calgary, Alberta
Dr. Denis Vaillancourt	Département de médecine, Faculté de médecine vétérinaire Saint-Hyacinthe, Quebéc
Phyllis Mierau	Western Canadian Association of Bovine Practitioners (WCABP) Saskatoon, Saskatchewan
